

Situation.

Gravity is the bodies in the universe that bend space and time to form an attraction that causes these same bodies to move in the same direction. Also, it's a modern hotel bar in Tashkent, the brand identity of which reflects the essence of gravity, attracting everything around him to one point and bending the space-background.

Task

To announce the opening of the bar, having a **low** marketing budget.

Idea

We have created a series of posters that **change the structure of urban non-advertising surfaces** that attract the attention of passers-by through visual play with reality.
